VAT Relief Information

What is VAT Exemption / Relief?

Government legislation states that VAT exemption allows chronically sick or disabled people to buy eligible items at 0% VAT thus saving them money.

Displayed Prices

All prices exclude VAT unless indicated.

Who is eligible for VAT relief?

To be eligible for VAT relief the government says you have to fit the following criteria:

Charities who simply provide their charity number.

A person is 'chronically sick or disabled' if he/she is a person:

- with a physical or mental impairment which has a long-term and substantial adverse effect upon his/her ability to carry out everyday activities
- with a condition which the medical profession treats as a chronic sickness, such as diabetes
- who is terminally ill

Important: It does NOT include a frail elderly person who is otherwise able-bodied or any person who is only temporarily disabled or incapacitated, such as with a broken limb.

All details and pricing are correct at time of going to press.

What proof do you need to provide?

In order to waive VAT on your purchase, the government requires a simple declaration to be made as to the nature of your disability at the time of ordering. No proof of your disability needs be shown to any person at any time.

It's very easy to claim VAT relief, all we need to know is the name and address of the person the item is for and what their chronic sickness or disability is. We don't need a doctor's letter or certificate.

Who Decides?

The Government of the day decide which items are or are not exempt. We have no choice in the matter. We don't make any more or less money if we charge you VAT as all VAT is submitted to the Government.

If you do not make a VAT exemption declaration, or you are not eligible for VAT relief, we are obliged to charge you the full VAT at the current rate on the whole of your order.

Not all of our products are eligible for VAT relief, so we are obliged to charge VAT for those products even after you complete the declaration.
